Donseed to create 26 jobs

DONSEED IT is set to invest €1.2m in a move which will create 26 new jobs in Tralee over the next two years.

Enterprise Ireland and the AIB Seed Capital Fund are supporting the investment by the company, which will be in research and sales.

Donseed provides web-based technology which allows firms to monitor areas such as attendance and compliance with health and safety rules. It currently employs six people at the Kerry Technology Park.
